

Unit Name: **Hyena** (Wheeled (6x6)) Call Sign:

Duty/History/Innovations: The Hyena is a new American unit. Only fielded in the past year, it has already proven itself in combat. With a road speed in excess of 100mph it can quickly move from one field of engagement to another. It is also one of the first units to implement the new Variable Laser, which can fire without a full charge, albeit at reduced damage. These units will be common in all Patriot Armies soon.
