Unit Name:	**T-80U**	(Tank (Treaded))	Call Sign:

Duty/History/Innovations: The T-80 is just slightly heavier than the T-72 but replaces the heavy diesel engine with a turbine. This innovation affords the T-80 a 30% increase in armor and allows for additional ERA plates to cover the front flanks of the tank. T-80 tank crews were much enamored with this more survivable T-72. So much so that their combat effectiveness increased in proportion to their armor. SOVIET
