

Unit Name: **William Wallace** (Walker (2 Legs)) Call Sign:

Duty/History/Innovations: Designed by the Israelis at the request of the Irish to fight in the hills and forests of their own country, the Wallace has since been exported to many Free States armies. While it has no long range weaponry, it has nevertheless proved to be quite lethal. With it's quick agility, and devastating hatchet many UN crewmen have been sent to the hereafter never knowing what hit them
