

Unit Name: **Za'afiel** (Walker (2 Legs)) Call Sign:

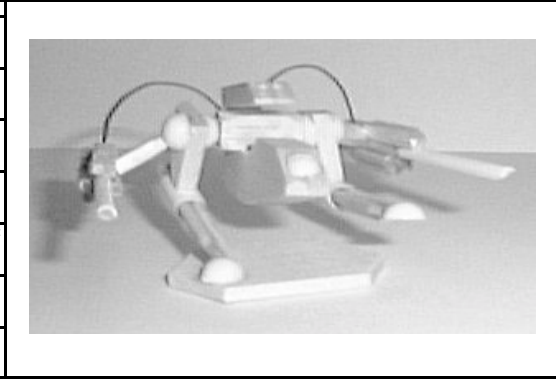

Duty/History/Innovations: Devolped in Israel, this is one of the most feared walkers in it weight class. The two Masers can handle almost any unit in the field today. While a little under-armored for its size, it needs as much weight devoted to power generation as possible. These units have only been in service for 2 years, but they have left a trail of scrap in their wake. Every Free State Army fields these units.
